

PLAUSIBILITY CHECK

VISITOR PROGNOSIS "HAUS DES WALDES"

Source: <http://hdw-hamburg.de>

Client: Schutzgemeinschaft Deutscher Wald, Landesverband Hamburg e.V.

Year: 2009

Location: Hamburg, Germany

Brief Description:

The Schutzgemeinschaft Deutscher Wald Landesverband Hamburg e. V. (SDW) is offering various educational programmes in Niendorfer Gehege, Hamburg, which focuses on the target groups children and school classes. These offers should be pooled and strengthened with the stationary institution „Haus des Waldes“.

Andreas Heller Architects & Designers GmbH, Hamburg, was commissioned with the conception and development of the project. As an essential component of the concept an exhibition area with the topics „forest“ and „sustainability“ is planned.

SDW commissioned Wenzel Consulting with the plausibility check of essential figures.

Tasks:

- Short Concept Description "Haus des Waldes"
- Delimitation of the Catchment Area
- Analysis of the relevant Demand Potential
- Plausibility Check of the Visitor Prognosis
- Presentation of Reference Projects
